October 22, 2012

To whom it may concern;

Regarding American materials content & manufacturing locations for Cable manufactured by Lake Cable llc.

Lake Cable, LLC and its affiliates, manufacture all of our product offerings in the United States of America. One hundred percent (100%) of the manufacturing occurs in Bensenville, IL, and/or Valparaiso, IN with wire drawing and fabrication at our Elkhart, IN location.

The copper conductors, shielding & barrier tapes as well as the insulation and cable jacketing compounds are purchased from US metals and plastics companies that manufacture all but a few select materials in the Unites States.

- Made in America Act H.R. 1613 (19/3/2009)
- The National Manufacturing Strategy Act H.R. 4692 (28/7/2010)
- American Recovery and Reinvestment Act of 2009 H.R. 1 (6/1/2009)

Sincerely,

Brian Holland
