Omni Cable VITALink Project Registration Program
April 24, 2015

I GOAL AND BASIC PARAMETERS

The goal of this program is to get VITALink products specified and/or qualified to be quoted on a project. Introducing and educating contractors involved in 2 Hour Critical Circuitry is only a part of the overall scope required to receive Project registration, but in itself receives no pricing advantage. Even if MI cable, for example, is an accepted spec product, getting VITALINK added to the RFQ process is what will need to be accomplished. Involving Omni Cable in the process to be involved in the project and receive the Bill of Material (BOM) to determine the VITALink products(s) to quote is the key to differentiation for registration qualification.

Partnering with individual distributors who can bring us closer to the customer (electrical contractor) and closer to the order on a specific project provides a clear advantage for the ED and Omni Cable. When a distributor provides us specific access or information that will help us obtain the business, it is in our best interest to work with that channel partner to support the current order opportunity, reward the distributor and sales person, and encourage him/her to repeat the effort. We will "protect" the Distributor who has done the work described above by giving them preferred pricing for that specific project. Each project will be qualified on a case-by-case basis. There is not a predetermined level of protection. That is decided on the level of influence provided for a project and differentiated work by the ED.

II VITALINK SPECIAL PRICING PROGRAM SPECIFICS

TYPES OF SPECIAL PRICING:

1. Electrical Distributor (ED) Differentiated Pricing
   Where the proactive work positions a VITALink solution into an end user project and receives the ability to have Omni Cable quote the job. ONLY available to one (1) ED per project.
2. Assistance Discount Pricing
   A tool to help the ED and Omni Cable close the sale. If Differentiate Pricing is not warranted on a project, Assistance Discount pricing is available for the ED who did support the Omni Cable / VITALink product in some manner for this project.

THRESHOLDS FOR SPECIAL PRICING:

1. Differentiated Pricing - $>=50K
2. Assistance Discount Pricing - $>=25K

CONFIDENTIAL

DISCOUNT PERCENTAGES:

There will not be a specific percentage discount applied across the board in any Special Pricing Requests. It will be determined by the project and product on a case-by-case basis.

PROCESS:

A. Differentiated Pricing

1. EDs MUST register their request for Differentiated Pricing by completing the VITALink Project Registration Form, which will be sent to their Omni Cable Regional office.
2. Registration form must be submitted PRIOR to the bid for that project. No retroactive credit will be given.
3. Omni Cable will then assess whether VITALink was properly positioned by the ED. If so, it will be sent to Senior Management for approval. If Differentiated Pricing is not warranted, but the ED supported the Omni/VITALink product in some manner, an assistance discount may be offered by Corporate.
4. When approved for Differentiated Pricing, a unique Project Registration ID number will be provided. Until the registration number is assigned, no special pricing or terms will be guaranteed.
5. Pricing protection will typically be good for six (6) months, barring copper adjustments and manufacturer increases while waiting for a Won/Lost notification. The ED must notify Omni Cable and submit a complete bill of material list when the project is WON.
6. Omni Cable will then provide a product quote to the ED for that project.
7. Awarded projects will typically be valid for six (6) months after notification of a successful bid.

B. Assistance Discounts

Omni Cable communicates to the ED that Pricing Assistance is available for a project. The ED must request a quotation with the applicable pricing. Without this quote, no special pricing will be guaranteed. This discount will be valid for 60 days waiting for a bid approval notification. Extensions are available upon request.

MULIPLE LOCATION PRICING

Multiple locations of a project must be given to Omni Cable for approval for Special Pricing.

PRICING CHANGES & CANCELLATION GUIDELINES

Omni Cable may be required to change prices or parameters of this program based on the manufacturer's pricing policy and specific terms & conditions of the project. We reserve the right to cancel any price protection granted if project circumstances are altered or change in any way.
